H. P. WOOD TELLS OF HIS PLANS

NEW SECRETARY OF PROMOTION COMMITTEE MEETS THE BOARD FOR FIRST TIME IN HIS OFFICIAL CAPACITY AND MAKES SOME VALUABLE SUGGESTIONS—PROPOSED YACHT RACE FROM 'FRISCO DISCUSSED.

H. P. Wood, the new secretary of the Promotion Committee, made his initial bow yesterday at the committee's regular meeting. There were present Vice-Chairman Gartley, who presided, Secretary Wood, E. I. Spalding and F. C. Smith. The retiring secretary, E. M. Boyd, was also present at the opening of the meeting to bid his official adieu to the Board and wish his successor luck.

It was decided to invite Commodore Hobron of the Yacht Club to attend next Wednesday's meeting so that he can discuss the proposed race from San Francisco with the committee and give his views. Interest in the race is being shown by the California Promotion Committee, as was instanced by a letter from the secretary Rufus P. Jennings.

The committee decided to continue its magazine advertising through the agency of Frank Seamans of New York.

Secretary Wood then submitted a statement to the Committee which read as follows:

To the Chairman and Members of the Hawaii Promotion Committee: Gentlemen: It gives me pleasure to report that having accepted your offer of the secretaryship of the Hawaii Promotion Committee, I severed my connection with the San Diego Chamber of Commerce September 26th, leaving that day for San Francisco, via Los Angeles, in order to take passage by the Alameda, sailing September 30th. I remained in Los Angeles until 3:30 p. m. of the 27th which gave me ample time to thoroughly investigate conditions there.

The committee's representative at Los Angeles has been known to me for several years. Miss Whitlock has the confidence and respect of the management of the Southern Pacific and Santa Fe railways and works in perfect harmony with all the railroads and steamship lines represented at Los Angeles which, as you are aware, is the tourist clearing house for California. Being on friendly terms with M. J. J. Byrne, G. P. A. of the Santa Fe, and also being well acquainted with Messrs. Graham and Martin of the Southern Pacific, I approached these gentlemen concerning Miss Whitlock, and was assured by them that in their opinion Hawaii could not have a better representative at Los Angeles, thus confirming my own opinion. Miss Whitlock's office at Los Angeles, 207 W. Third street, is centrally situated and well arranged for the work carried on. The visitor is cordially greeted, all questions being courteously and reliably answered. You are at once impressed with the earnestness and thoroughness of the young lady in charge. I am pleased to state further that Miss Whitlock has now completed arrangements whereby she has secured the services of a competent assistant, a young man experienced in railway passenger business, of good address, who during the winter months will be constantly travelling throughout California, visiting at regular intervals all the prominent hotels, distributing our folders and making a special effort to turn the attention of the travelling public toward Hawaii. At present I understand that the committee is allowing Miss Whitlock \$100 per month, which includes rental of office and service. I also have been given to understand that from the 15th of October or the first of November an additional \$50 per month might be allowed, this amount

The Auto And The Horse

SAM JOHNSON TELLS WHERE EACH WOULD FIT WELL INTO HIS WORK—THE COMBINATION.

Sam Johnson Road Supervisor, says that the automobile proved its value for such service as he needs it for, under certain conditions. In all the level regions of his bailiwick, wherever there are good roads, it is infinitely superior to horses. He could do in an hour's time with the auto what it would take half a day to do with a horse.

But where roads are muddy, and where they are excessively steep, and in the approaches to many quarries, and many other places where he has men at work, it would not do at all. For instance, he sometimes has men at work on Tantalus, and to go to where they work in an auto is impracticable. There are indeed some places he has to go in supervising the road work of the county where he cannot even drive a horse and buggy, but must go on foot or horse back.

His idea is that an automobile for the bulk of the work and an auto horse for the portions of the work where an automobile is not suitable is the best solution of the question, instead of the three horses that it now takes to enable him to get over his work. But the supervisors couldn't see it that way; they thought it should either be an automobile or horses for all the work, and under that decision there was no question—it was the horse.

Johnson begins his day early. Half-past four o'clock in the morning often sees him out at work. He has to supervise not only the road work, but the garbage department and work begins early in both departments, and before work can begin the teams employed have to be fed and harnessed and the equipment looked after.

ALL HE NEEDED. "Don't you play any of the popular airs," asked the man who was attending to the details of a convention. "No," answered the leader. "This is a political band. We don't play anything but 'Hail to the Chief,' 'Star Spangled Banner' and 'He's a Jolly Good Fellow.'"

NERVOUS DYSPEPSIA. A spoonful of Dr. Miles' Restorative Nerve after meals for a few days is almost sure to relieve this distressing complaint. It strengthens the nerves of the stomach, stimulates the secretions, and accelerates the progress of digestion. Try it. If first bottle does not benefit, you get your money back, so it costs you nothing if it fails.

Fine Job Printing, Star Office.

There's Only One CREMO CIGAR

Be sure that your CREMO CIGAR has the word CREMO perforated in the wrapper of the cigar. The CREMO has no band. It has only its perforated mark and the best flavor and smoking qualities to distinguish it from any other 5c. Cigar.

TERRORS OF DARKNESS

There seems to be an instinctive dislike of darkness. We seem naturally to associate the realm of impenetrable gloom with those thoughts that strike terror to the soul.

Nervous people especially are unpleasantly affected by darkness. For them the dark house or the dark room, often holds a terror in its most familiar spots.

With Electric Light in your house, you can, from your vestibule, touch a button and light any portion of it by that magic button. Light is always at your finger-tips, as it were.
